

Once Upon A Time

Year 1

Autumn Term 2025

As Sportspeople we will be developing our skills in throwing, catching, dribbling and rolling. In Gymnastics we will be controlling our bodies, rolling, travelling and balancing in different ways.

As Artists we will explore the media of paint and identify primary and secondary colours. We will create collages using a range of materials and describe what we like in the work of an artist.

As Historians we will be learning about chronological order, researching how toys have changed and using vocabulary such as old, new and a long time ago.

In Computing we will be using different tools to create a picture.

As Design Technicians we will be using different materials to make models and a product which moves.

In R.E we will be learning about special people, celebrations and ceremonies in the Christian and Hindu religions.

As responsible citizens we will be building new relationships with our Phase Group. We will be using 'The Colour Monster' to explore emotions and feelings.

As Scientists we will be observing seasonal changes. We will also be identifying, sorting and naming materials and discussing their properties.

In English we will be reading, retelling and writing traditional stories. We will be describing characters and the settings.

As musicians we will be listening to and learning about rhythms and appreciating different types of music.

As Geographers we will be thinking about the types of clothes that we need to wear in different climates and seasons.

In Drama we will be exploring themes and characters within selected fairy tales. We will also be exploring our emotions referencing 'The Colour Monster'.
